Direction for use :
The product should be used with a respirator or nebuliser only, under the direction of a physician. It is not to be injected or administered orally. Remove a strip of combipack respules from the carton. Use a fresh respule for each dose.
1 Tear one respule from the combipack.
2 To open the respule twist off the cap as shown in the figure.
3 Squeeze the content into the reservoir of the nebulising chamber.
4 Discard the respule after use.
Store the respules in foil pouch at all times. Once the foil pouch is opened the respules should be used within one month.

Composition: Each capde contains:
Levosalbutomol Sulphate IP
Eq. to Levosalbutamol 100 mcg
Ipratropium Bromide IP 40 mcg
Excipients a.s.
Colour. Approved colours used in
empty capsule shell.
Dosage: As directed by the physician.
Storage: Store at a temperature
not exceeding 25°C. Protect
from light and moisture.
Do not exceed the recommended
dose.
Direction for use: Refer the
enclosed leatlet before.
Keep out of reach of
children

Direction for use :
The product should be used with a respirator or nebuliser only, under the direction of a physician. It is not to be injected or administered orally. Remove a strip of combipack respules from the carton. Use a fresh respule for each dose.
1
Tear one respule from the combipack.
2
To open the respule twist off the cap as shown in the figure.
3
Squeeze the content into the reservoir of the nebulising chamber.
4
Discard the respule after use.
Store the respules in foil pouch at all times. Once the foil pouch is opened the respules should be used within one month.
